The document contains the following text:  
**Model 1**  
"The best Education happens outside the classroom". Self-study and traditional classroom learning complement one another. When used together, they help students learn and retain information better. The Student teachers may exercise and develop intellectual independence and explore subject matter they personally find interesting.  
**Model 2**  
Education is no longer confined to just the classroom. Self-learning ensures that learners learn outside the formal systems thereby giving them more flexibility and freedom to explore new avenues of learning. Self study courses meet the intellectual needs of individuals in such an interconnected society.
